

Welcome

WELCOME

A warm welcome to "the best little beach school community in Queensland"- Broadbeach State School. This is a great school, harmonising high quality education with a sense of true school community spirit in one of the most spectacular settings, directly opposite one of the most beautiful beaches in the world!

At Broadbeach we have built a reputation as a caring school with excellent educational opportunities, including a quality curriculum which incorporates academic, social, cultural and sporting excellence, high behaviour standards and a commitment to continuing improvement and life long learning. We are proud of our traditions, whilst at the same time reaching into the future to create a responsive curriculum which prepares our children for the future.

The smiles on the faces of our students are testament to their sense of achievement and optimism - outcomes of the positive school culture - always being encouraged to strive to do their best both individually and as part of a team.

At Broadbeach our students work, learn and play in a warm, supportive and productive environment of which we are very proud. We are a happy, high achieving school. On behalf of the staff and parents at Broadbeach State School I would like to extend an invitation for you to join us.

Welcome

Robyn Wilton
